

ROUTE 191– RIVERROADALE/ATL INTERNATIONAL TERMINAL

Proposed Route Modification Description

- To provide better access to jobs in the Hartsfield Jackson Atlanta International Airport south cargo area, it is proposed to modify Route 191 to travel along Airport Loop Road, South Cargo Drive, South loop Road and Lake Mirror Road Monday through Saturday.
- To facilitate this change, service is proposed to operate every 45 minutes instead of every 40 minutes on these service days.
- To simplify service and provide more service to higher ridership stops along Flint River Road, it is proposed that every Route 191 trip on all service days operate along GA-85 and Flint River Road, providing service every 45 minutes Monday through Saturday and every hour on Sundays.
- Route 191 service on GA-138 and Tara Boulevard Road between GA-138 and Flint River Road would be discontinued.
- However, the GA-138 segment would still be served by Route 198 and the segment of Tara Blvd. would still be served by Routes 192 and 193.
- This change is consistent with existing plans for Clayton County's bus service.
- There are no other routing or frequency changes proposed for Route 191.

MOBILITY

- Complementary ADA service will be adjusted to reflect the modified route alignments to comply with the Americans with Disabilities Act of 1990.
